This Faculty Development Program aims to prepare faculty to make innovative strides and reforms in tutoring- learning surroundings. Mentoring of faculty will go a long way in achieving institutional and organizational pretensions. Advanced education is responsible for creating knowledge for weal of humanity. But this aspect has been changed in last two decades when knowledge has been converted into knowledge frugality and advanced education in nearly all the countries is being driven by this conception. That's why HEIs of moment are facing stiff competition among themselves. HEIs need to fulfil their abecedarian duty of social responsibility by rallying of their intellectual coffers for the better cause of society and humanity as a whole through exploration, invention and knowledge frugality. donation of knowledge frugality for which the HEI stands, as part of its objects towards social responsibility, may be considered superior over any other mode of donation, particularly at a time when there's extremity of global dimension. Further, meaningful and economic engagement of pupil community for the betterment of society itself is a social responsibility of an HEI because society as a whole views the HEIs as a source of bright future for their children.
